Course Aims

This course is an introduction to the fundamental concepts of Western oil painting. In this course you will learn to prepare various surfaces, mix colour, learn methods of application and basic control of materials and tools. Techniques include varieties of slow-drying, indirect oil painting, and modernist direct application of wet-in-wet paint. There will be an emphasis on traditional subjects ranging from still life, self-portrait, the figure to the individualization of your own pictorial language. There will be a focus on the integration of drawing and design concepts, color relationships, and the articulation of descriptive and expressive form. You will gain experience in the assessment and analysis of your own painting and that of other artists.

Intended Learning Outcomes (ILO)

By the end of the course, you should be able to:

1. Integrate design and colour concepts to create paintings both representational and abstract.
2. Paint in techniques using slow-drying, indirect oil painting, and modernist direct application of wet-in-wet acrylic paint.
3. Apply principles learnt in class to develop an individual pictorial language.
4. Present and discuss painting processes, concepts, and finished work with clarity.
5. Critique your own artwork and your peers’ work in a clear and constructive manner.

Course Content

The course is conducted in a studio/classroom or at a site-specific place corresponding to the assignment. The instructor and students observe the progress of everyone’s work, and contribute critique as it is being made. Learning is a collective experience in the classroom, and you will problem-solve on the canvas, benefitting from a cross-pollination of ideas and input from your peers. It is therefore very important that you attend all classes.

The semester begins with representational painting using slow-drying, indirect oil painting techniques learning basic paint mixing, colour observation and composition. Gradually you will become more independent with your work. The semester ends with experimentation of modernist direct application of wet-in-wet acrylic paint.

The course also offers opportunities to collaborate with local museum exhibitions as well as international students, artists and communities.
Course content includes:

- **Introduction to materials:**

Course Policies and Student Responsibilities

(1) General
You are expected to complete all assigned readings, activities, assignments, attend all classes punctually and complete all scheduled assignments by due dates. You are expected to take responsibility to follow up with assignments and course related announcements. You are expected to participate in all project critiques, class discussions and activities.

(2) Punctuality
You are expected to be punctual for all classes. If you are more than 30 minutes late, you will be deemed as absent and will not be able to sign on the attendance register.

(3) Absenteeism
In-class activities make up a significant portion of your course grade. Absence from class without a valid reason will affect your participation grade. Valid reasons include falling sick supported by a medical certificate and participation in NTU’s approved activities supported by an excuse letter from the relevant bodies. There will be no make-up opportunities for in-class activities.

Academic Integrity
Good academic work depends on honesty and ethical behaviour. The quality of your work as a student relies on adhering to the principles of academic integrity and to the NTU Honour Code, a set of values shared by the whole university community. Truth, Trust and Justice are at the core of NTU’s shared values.

As a student, it is important that you recognize your responsibilities in understanding and applying the principles of academic integrity in all the work you do at NTU. Not knowing what is involved in maintaining academic integrity does not excuse academic dishonesty. You need to actively equip yourself with strategies to avoid all forms of academic dishonesty, including plagiarism, academic fraud, collusion and cheating. If you are uncertain of the definitions of any of these terms, you should go to the academic integrity website for more information. Consult your instructor(s) if you need any clarification about the requirements of academic integrity in the course.

Planned Weekly Schedule*

*Subject to adjustment by instructor according to the teaching situation, students’ progress, public holidays and unforeseeable circumstances. A revised schedule will be issued to students at the start of the semester.
